

Grade 2A and 2B

Storyline:

*Blessed to Be a Blessing
Growing Towards...*

Throughlines:

*Servant Working, Community
Building, Earth Keeping, Justice
Seeking*

“My deep hope is that students experience a safe environment that models God's grace, provides opportunities for meaningful service, risk-taking in relationships and learning, and chasing curiosity while we grow in community as we pursue our purposes in God's story.

– Mr. Hazell

“My Deep Hope is that they understand GOD’S BLESSINGS of HIS GRACE and LOVE for them, so that they have a desire to respond in thankfulness, by being a BLESSING to OTHERS.

– Mrs. VH

PEW: Students relate money and decision making.

Social: Compare the locations of places using relative location.

Math: How can quantity contribute to a sense of number?

Bible: Explored the project through the lens of Throughlines.

FLEx Story: *Grade 2 is desiring to “be a blessing to others” and “grow towards” the plans and purposes God has for us. We had a guest speaker come and share a need for fresh water in San Jacinto, Colombia. The students were excited to show Servant Working and leadership by accepting the challenge to provide families with the gift of clean water for all life. Compassion Canada not only provide water and sanitation supplies, but will also provide for the people’s spiritual needs and present them with the gospel, our hope of Living Water!*

*“I learned about people who need help. I feel sad for them. I hope that they can get the water that they need” – **Jamie 2B***

*“I learned people got sick in Colombia. I feel sad for them. I hope they get clean water!” – **Andrew 2A***

Our whole reason for choosing to partner with Compassion Canada is that we have been able to see firsthand how well they manage their finances, meet real needs in troubled places, and they have always been eager to send a representative to explain the need through stories, pictures, and demonstrations. We have seen time and time again that students who catch a vision to see God’s kingdom established on this earth are not only willing, but eager to put their hand to the plow! That was on ample display this year as our students diligently researched the need, planned and executed a fundraising effort, created an inspirational movie to encourage the rest of the school community to join us, and finally, work so hard on an individual level to raise money for this worthwhile investment!
